

iDiv Annual Conference 2025

Tuesday 30 September 2025

Current Status and Challenges of Ecometabolomics in Biodiversity Research - Lecture Hall XXIII (14:00 - 15:30)

-Conveners: Henriette Uthe

time	[id] title	presenter
14:00	[53] Does herbicide exposure in oil palm plantations affect wild southern pig-tailed macaques?	WIDDIG, Anja
14:15	[90] The Metabolic Inventory of Non-human Primates through Non-Invasive and Field-Friendly Fecal Analysis	MASCELLANI BERGO, Anna
14:30	[93] Aliphatic Esters as Honest Signals in Fruit–Frugivore Interactions: An Ecometabolomic Approach in Malagasy Ficus	NGUYEN, Linh
14:45	[105] One molecule, many signals?! Challenges and opportunities for the dark metabolome in ecometabolomics	ANAIA, Redouan Adam
15:00	[115] Ecometabolomics at iDiv – lessons and perspectives	Dr UTHE, Henriette
