

# iDiv Annual Conference 2025

## Wednesday 1 October 2025

### Biodiversity Dynamics and Complexity - Audimax (14:00 - 15:30)

-Conveners: Benoit Gauzens; Anika Neu

| time  | [id] title  | presenter                      |
|-------|---|--------------------------------|
| 14:00 | [104] Multi-taxa Pan-European Connectivity: Prioritization of Continental Connections                                       | DERTIEN, Jeremy                |
| 14:15 | [37] Combining GBIF data with national atlases reduces spatial bias in climate niche modeling                               | COQUERY, Thibault              |
| 14:30 | [46] In-depth analysis of the origin of Primary Biological Aerosol Particles (PBAPs) in a temperate forest of Leipzig       | Ms VALATH BHUAN DAS, Bhavana   |
| 14:45 | [56] Phyllosphere bacterial dynamics and throughfall-mediated bacterial transport in a temperate hardwood floodplain forest | SANKA LOGANATHA CHETTI, Dinesh |
| 15:00 | [66] Dynamics of pairwise tree interactions during increasing diversity effects over time                                   | MADER, Sebastian               |
